

PROJECT UPDATE

Senior Center | Park City, KS

August 29, 2025

SUMMARY

Lots of work has been done over the past two weeks!

- Higgins is still working on structural framing and installing the remaining trusses. They started sheathing the exterior of the building this week as well.
- Flint steel has finished installing all structural steel, has set the precast panels for the storm shelter and are working on decking the roof.
- Midwest Fire Protection has started installing the fire sprinkler lines.
- Ziegler Electric and fox plumbing have started in wall rough in inside the building.
